

Photography policy

2 October 2013

Sussex County ASA are aware of the wide range of mobile phone and other personal hand held devices with a photographic capability, enabling the capture of both static & moving images. Used responsibly, such devices are perfectly safe, but sharing images widely may betray a confidence or even an identity and such information may help those who may want to harm children.

The use of such equipment is difficult to control but we can all be vigilant and if you have concerns in this area please bring them to the attention of the event manager.

Some of our events will be photographed. Static images will be displayed on the website www.sussexswimming.org, at the venue and used to promote the sport at this event and events in the future.

Sussex County ASA, British swimming and the ASA work closely with our experts to ensure that in making these images available to enhance the presentation of the event; we are not putting any children at risk in any way. If you have any concerns please refer to ASA Wavepower document, section 2.5, pages 84-85. The document can be found at www.swimming.org.

If you are expecting to take any photographs or videos at any event please register your photographic devices with the reception desk. This is in line with the ASA's child safeguarding and welfare guidelines.
